OLD ADAGE FALSE

Family Finds Lightning Does Hit
Same Place Twice

Special to The Star
DELAWARE, O., Aug. 21.—Lightning does strike twice in the same place.

The age-old adage was disproved at the Walter Harsh farm home south of Radnor. Last week, during the family's absence, lightning struck a lightning plant at the house, knocking fixtures from the walls, burning out all wires and bulbs and damaging a radio.

During the Wednesday storm and just after Mrs. Harsh had said, "Well, we don't have to worry any more about electrical storms, for lightning never hits in the same place twice," a deafening crash came. The house was filled with more sparks than are seen at a county fair fireworks display, lighting fixtures fell from the walls, light bulbs exploded and the radio ceased playing.

Floyd A. Nunn (above), 31-year-old Flint, Mich., auto plant worker, was held by police with his wife after admitting an attempt to dig a tunnel from a storm sewer to the vault of a nearby Flint bank. (Associated Press Photo)

POLITICS SPLIT EUROPE IN TWO

Fascism Confronts Socialism in Dispute Over Course To Take in Spanish War

In the transacted press, the two schools of political thought were at odds against each other today in dispute over what course for a long while will prevail in the Spanish Civil War, with uncertainty as to what result had broken out in Port Said after a week of fighting.

A short time ago, although communists were at odds for several hours, last night the radio said that there was no abnormal radio communication but said that any confirmation or denial of a Port Said result.

Premier Mariano Cerezo, a state of mind, was reported to have tried to cover up his part in the return to abdication of the Sultan, and the Sultan of Spain in the Spanish conflict.

Due to the neutral neutrality of the radio, it was decided to remain silent about the return to abdication of the Sultan, and the Sultan of Spain in the Spanish conflict.

Germany, according to the report of a merchant ship Spanish in all, was ready for action with 10 warships in Spanish waters ready to meet force with force.

So it is that the German press charged had taken over command of the Spanish conflict in an effort to get his world flame for revolution.

Force was reported ready to demand apology from Madrid for reported search of the German steamer in its effort to pacify Nazi Chancellor Hitler into a signing a neutrality pledge.

Great Britain adopting a policy similar to that of Germany, announced stern measures would be taken against any interference with her shipping in Spanish waters.

Contrasting Conflicts

Should result in Portugal develop the southern peninsula of Europe would present a picture of a Socialist government trying to crush fascism in Spain and a fascist government in Portugal battling communism.

In Spain itself the bloody war continues. There was fighting in the Guadarrama mountains outside Madrid in northern Spain and on the Pyrenees frontier at San Sebastian and Iran.

Refugees from rural Zaragoza reported that Fascist factories were turning out poison gas bombs, deadly weapon of war which the rebels have charged were used by loyalists.

The Spanish government has denied use of any gas bombs, although a Paris dispatch asserted ten gas bombs had been used in one engagement.

French Protest

Correspondent's Arrest

By the Associated Press

PARIS Aug. 21.—The French minister to Lisbon protested today to the Portuguese government the arrest of a Paris newspaper correspondent as an unconfirmed report reached here that a revolution had broken out against President Oscar Carmona.

The government radio bureau however said at noon there were no normal communications with Lisbon and no confirmation of the report of a revolution.

The last previous message they said was at 2:30 in Marlon time, though a Paris dispatch asserted ten gas bombs had been used in one engagement.

Bridge Club Meets at Forest Lewis Home.

By The Associated Press

CHICAGO, Aug. 21—Floyd "Babe" Herman, deserting outfielder of the Cincinnati Reds, still mused today the idea of placing his contract squabbles before Keasav Mountain Lands, commissioner of baseball.

Herman said the club had promised him a bonus of \$250 every two weeks provided he hustled. He said he had failed to receive the bonus for the last three weeks.

He also said he had consulted Lands but the commissioner emphatically said he had not seen Herman.

AGAINST MOTHER

This is a portrait of Mrs. Elizabeth Felt, a teen actress, shown on television and in Los Angeles, as she testified she did not live her mother, Mrs. Harriet Felt, who is living in a rooming house of Ed's from the paternal grandmother, Mrs. Elizabeth Felt.

Establishment of perpetual care funds either with a trust company or with bonded individual trustees with a minimum of 20 cents a square foot deposited in the fund from the sale of each cemetery lot until \$100,000 has accumulated when the minimum may be reduced to 10 cents.

Benesch said the commission would submit these recommendations next month if the current bill is not passed, but it is not clear when the proposed revision should be resubmitted to the legislature.

He said the proposed revision would give the state strict control over "high" sales of cemetery lots.

The preliminary recommendations were prepared by a subcommittee headed by W. D. Bittner, secretary of the Association of Cemetery Superintendents. Working with him were F. N. Sloan of Marion, secretary of the Ohio Association of Cemetery Superintendents; George E. Tiff, of Columbus; and Capt. McLean of Canton.
